

**OPERATION CONFIRMED MEDIA LIST
FOR FOSTEX MODEL MR-8HD (with V1.27 or later software)**

3rd issue (2006/03/23)

The listed internal 3.5" hard disks as well as the external USB I/F drives were optionally obtained from the market and were confirmed to operate properly with MR-8HD through our lab tests. This does not mean all the drives of the same manufacturer and of the same model name / number / capacity always work properly due to subtle difference in manufacturing time and place. This should not be taken as an evaluation of general quality of hard disk and drive.

1. Internal 3.5" hard disk

Manufacturer	Capacity	Model Name	Model No.	CACHE/RPM
Maxtor	40GB	DiamondMax 14	6K040L	2MB/7200
Maxtor	40GB	DiamondMax Plus 8	6E040L	2MB/7200

2. External USB drive

In order to create an audio CD using an external USB drive, the MR-8HD software must be updated to V1.21 onwards.

Manufacturer	Type	Model Name	Model No.	Part No.
iomega *1	CD-RW	CD-RW 52x USB2.0 Drive	CDDVD482416E23	31191900
iomega *1, *2	CD-RW	CD-RW 52x DVD-ROM USB2.0 Drive	CDDVD482416E23	31191900
FREECOM *3	CD-RW	Classic Series CD-RW 52x32x52 USB-2	-	27105
Memorex	CD-RW	ultra-speed CD-RW recorder EXTERNAL USB2.0	MRX523252AJEL-1	32023234

*1: The Model No. as well as the Part No. of old and new iomega drives are the same.

*2: In order to use the iomega CD-RW/DVD-ROM drive, the MR-8HD software must be updated to V1.26 onwards.

*3: In order to use the FREECOM CD-RW drive, the MR-8HD software must be updated to V1.27 onwards.
